

# BUILDEX 温哥华建材展

BUILDEX Vancouver Building Material Exhibition

我会付会长方武女士新春意气风发将中国的福美新型绿色建筑材料引入加拿大。她带着产品参加了 2017 温哥华建材展览会，是与会展台中人气最旺的其中一个。共有几百人主参观者。

福美 Phomi 建材产品是运用天然 4 种土壤，经过纳米合成土壤改性技术，低恒温融合，通过 3D 打印的尖端技术来完成整套制造工艺。其使用范围非常广泛，可以运用于内外墙壁，地板地面，房顶梁柱等多方面建筑工程。而且是可呼吸的绿色环保建材产品。

Phomi MCM products are green and Eco friendly made by four types of natural clays. Utilizing Nanotechnology concept and 3D printings techniques manufactured.

Can broadly utilized in many commercial and residential buildings and housing development projects. Interior and exterior wall, ceiling and flooring and decorative pillars and many architecture buildings finishing projects. Phomi MCM products are breathable and eco green building materials.
